THE CHARLEROI MAIL

VOLUME XXI—NO. 4. CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA. WEDNESDAY, JUNE 9, 1920 TWO CENTS

EIGHT DOLLARS PER TON IS OFFERED FOR "SPOT" COAL

Heavy Demand for Black Diamonds Keeps Prices At High Figure

SCOUTS LOOKING FOR ACREAGE

A repres[illegible] coal and coke brokerage firm in Pittsburgh, in Charleroi on Tuesday, was offering $8.00 per ton for coal, on track at point of delivery. He visited a number of dealers in this vicinity, but was not able to secure a great amount of tonnage, the lack of cars being a factor in a failure to secure the desired amount. The price quoted by the representative is the highest that has been offered in the local market for coal, and is probably a record price, being at the rate of 30 4 cents per bushel wholesale, a figure never before approached in the history of the trade in this valley.

It is said that "coal scouts" are numerous in the Pigeon Creek valley who are on a sharp lookout for any desirable coal lands which may have thus far escaped sale or option Such places are very scarce, although it is said that a number of new mines are in process of opening along that valley. One is located on the Gibson farm, southeast of Bentleyville; another on the Monongahela road near VanVoorhis, while more prerentious workings are being opened one mile west of Cokeburg.

To judge from the avidity with which the scouts are looking for coal lands, mining must be a profitable business just now, despite the high cost of labor and all commodities entering into the production of coal. Every small mine in this section of the valley has orders for all the coal it can produce, and while a great deal is being sold by rail, a considerable quantity is being loaded in barges on the river. Of course the prices vary between rail and river, but the uncertainty of car supply gives the river a chance to get a greater part of the output in spite of the differences in price. It looks as if coal mining will continue to be a profitable business, regardless of what future conditions may be.

COURT IS PASSING ON "JAKY" CASES

The criminal court at Uniontown is busy this week with a number of cases before it, the defendants answering to a charge of the sale of Jamaica ginger. All of these cases will be interesting from a legal standpoint. Enforcement of the prohibition law is now lodged with the federal government, but the "jaky" cases are brought under the State law prohibiting the sale of liquor without a license and on Sunday. The Jamaica ginger traffic reached some proportions in Uniontown and the coke region recently, but is now reported to be reduced to a minimum folowing the action of the District Attorney's office in causing arrests.

SUPPLY COMPANY FINED FOR SUGAR PROFITTERING

Charged with violating the Lever act by charging unfair and unreasonable prices for sugar, the Valley Supply Company, the Federal Supply Company, Walter J. Phillips, David C. Stephenson and Harry L. Donaldson were sentenced by Judge Orr in United States District Court on Tuesday to pay a blanket fine of $1,000. Officials of the two concerns entered pleas of no defense to an indictment handed down by the Federal grand jury, in which profiteering in sugar was alleged.

MET HIS DEATH IN CHARLEROI MINE

John Lundy, a miner, whose home was on Oakland avenue, was killed by a fall of slate in the Charleroi mine of the Youghiogheny & Ohio Coal company about noon today. Just how the accident happened is not known by the mine officials. Mr. Lundy being at work on what is called a "rib" at the time the slate fell and crushed out his life. The body was removed to the morgue of M. T. Crowley and prepared for burial. He is survived by three children, two sons, John and Charles, and one daughter Mary; his father Patrick Lundy, of Allenport; three sisters, Mrs. Patrick Comer, Miss Rose Lundy and Miss Margaret Lundy of Allenport and two brothers, Edward and James, both of Charleroi.

BATHING BEACH READY BY FRIDAY

President John B. Schaffer of the Board of Trade, announces that the bathing beach will be fully equipped by Friday for the accommodation of those who wish to use its facilities for bathing during the summer The varous bathhouses are being whitewashed, the swings and slides are in place, the floats on the river will soon be in position, while a backstop for the use of amateur baseball nines will also be erected for the benefit of youthful players. Quite a number have been using the beach for several days past, and with the permanent advent of warm weather this number will be largely increased during the next few weeks.

Ladies Auxiliary Meets.

A regular meeting of G. R. Craft Post 256 Ladies Auxiliary Veterans of Foreign Wars will be held in Town Hall North Charleroi Thursday, June 10, 1920 at 7:30 P. M. Dues are payable for 1920.

Birthday Services for M. E. Women's Missionary Service

The fortieth anniversary of the organization of the Woman's Home Missionary work in the M. E. church was fittingly celebrated on Tuesday throughout the denomination. The exercises in the local church began Sabbath evening, when Miss Mary Collins, a deaconess from Pittsburg, gave a most intresting and helpful address relating to the history and growth of this branch of work. Tuesday evening the three organizations engaged in the promotion of home missions, theHome Mission Auxlary, the Queen Esther Circle, and the Home Guards united in carrying out a most unique and entertaining program.

The first period was given to the Home Guards, who sang, marched, carried banners telling of their work and numbers, gave their class yell and concuded by depositing their offering as they marched before the rostrum in the Sunday school chapel. Mrs. Walter Byerly is superintendent of this work, to whom much praise is due for development of interest and growth in numbers their being eighty-four members, although the organization is only fifteen months old. Alver Chalfant is the president.

The Queen Esther Circle offered a varied program consisting of song, recitations, a pantomime and a playlet, the former representing Queen Esther pleading for her people and condemning their arch enemy Haman, and the latter emphasizing the call of different groups in our own land for gospel privileges. The performances were well rendered proving the successful leadership of Mrs. Wesley Peters, Jr., the president.

The Home Auxiliary's program was introduced in pertinent citations relating to the history of the local society, which is only eight years old, by the efficient president. Mrs. Clarence Welsh. Marked features of this part of the program were a duet by Mrs. Pollock, asolo by Mrs. Small and the placing of the birthday cake with its forty lighted candles, upon the table within plain view of all. The offering made by each branch will be counted and reported later.

Refreshments and a most enjoyable social tim ended the evening's program. All who were present felt amply repaid for coming and united in the opinion that such programs impart vision of need, conviction of duty and impulse to serve.

ARE REBUILDING CALHOUN BRIDGE

All traffic passing over the Bentleyville-Monongahela road, via VanVoorhis and the Pigeon creek valley, is forced to ford thewaters of Pigeon creek where the Calhoun bridge formerly stood. Workmen are busily engaged in clearing away the debris caused when the bridge collapsed last Wednesday, killing Walter Stansholtz, of Eldora, a helper on a truck belonging to the Fox Grocery company. The bridge will be rebuilt as soon as possible, for the highway is an important one, especially as it is the only practical detour between Bentleyville and Charleroi, while the Bentleyville-Charleroi is under process of reconstruction. With the rebuilding of the bridge travel by way of Pigeon creek will be made safer, and drivers will be able to make it under much better conditions than at present.

PLAINTIFF SUES FOR MONEY ADVANCED

In the suit of John Jenkins against Chares Reed, the plaintiff's statement has been filed. The amount of the caim is $51.45, with intrest from April 29, 1919. This sum is aleged due expenses incurred he alleges, in carrying out an agreement wherein the defendant agreed to sell certain property on Crest avenue, Charleroi. The defendant has failed, it is alleged to deliver the deed for the same.

FEAR ROAD MAY NOT BE COMPLETED

Donora automobile owners are fearful lest they be penned up as they were ast summer because of the incomplete condition of the highway between Donora and Monongahela. About one mile of this roadway yet remains to be improved with reinforced concrete, and while the contractor is again at work, he is making but slow progress, due to the apparent scarcity of cement. He was able to secure a small supply a couple of weeks ago by sending a truck to Washington, but that has been exhausted, and no more is on hand to continue the work. In the meantime Donora auto owners are compelled to use unimproved roads when they are in fit shape, but when the highways are the least but muddy they are compelled to remain at home. They are hoping that the contractor on the Monongahela road will be able to secure a sufficient supply of cement within a short time to complete his contract and give them a decent outlet to other highways.

WEST BROWNSVILLE TAX FIXED AT 22 MILLS

West Brownsvile council has fixed the tax levy of that borough at 22 mills for the present year. Sewage disposal was up for a heated discussion, the board of health objecting to the present method, hoding it unsanitary and unhealthy.

ADDITIONAL CARRIER TO BE ADDED TO LOCAL P. O. FORCE

SHOULD HAVE DISCHARGE PAPERS RECORDED

Recorder August Valentour has called attention to the necessity of ex-service men filing their discharges for record. This is a matter of importance to them. With this discharge paper on record, if the paper is ost, the record becomes a protection. These discharge papers are recorded without any charge to the soldier. Some have already been filed and were charged a fee. Those knowing they were charged for this filing can secure a refund of the money by calling on the recorded.

RETURN VERDICT ON STANSHOLTZ DEATH

The first inquest in Charleroi under the administration of M. T. Crowley, was held at the Crowley undertaking rooms Monday afternoon at which time an inquiry was made into the circumstances surrounding the death of Walter Stansholtz at the Calhoun bridge, Pigeon creek, near VanVoorhis, on Wednsday, June 2. The jury was composed of V. E. Reeves, who was chosen as foreman, D. N. Hall, Wm. Vetter, L. R. Frye, Frank Delveaux and Lee Honsickle.

A number of witnesses were called, among them the driver of the truck, all of whom testified as to the condition of the bridge, which appears to have been in very bad condition. It was testified that some time ago a new floor had been put in the bridge, but that the beams under the flooring had not been repaired. From the testimony it appears that Stansholtz was thrown from his seat in the cab of the truck and that his head struck the edge of a beam, which evidently caused his death. After hearing the evidence the jury returned a verdict:

That Walter Stansholtz came to his death June 2, 1920, while acting as helper on a Fix Grocery truck, when the Calhoun bridge near VanVoorhis, collapsed, the deceased having sustained a fractured skull and broken neck by being thrown from the truck. The jury further found that the collapse of the said bridge was due to unsafe condition which has existed for some time, and which has been neglected by the proper authorities.

John Christopher Munch.

John Christopher, infant son of Mr. and Mrs. John Munch, died at the family home, 312 Second St., Tuesday evening at 7:15 o'clock, aged two years. Funeral services will be held Thursday afternoon at 2 o'clock from St. Jerome's church, interment in Calvary cemetery.

Increase of Business Makes It Necessary to Add Additional Man

NEW FEATURES ALSO ADDED

A new carrier will be added to the force of the Charleroi postoffice on Thursday by Postmaster Smith, at which time Alfonse Bolonger who took the civil service examination some time ago, will take up his duties as a postal employe. Authority to employ an additional carrier was given to the local postoffice some time ago, but Postmaster Smith found it impossible to secure any one willing to assume the duties at the salary paid. Since Congress increased the pay of postal employes, making the minimum wage of all carriers and clerks $1,400 per year, with a maximum of $1,800, he has found his task easier in securing those who are willing to enter the service of the government. The addition of the new carrier will cause a rearrangement of the routes as now designated and will give the patrons of the office a better service.

The postmaster also announced that within a short time the local office would be equipped with an electric stamp canceller. Part of this equipment is already on hand, but they are waiting for the full shipment of the machine before it will be set up. With the addition of this machine it will be possible to handle much more rapidly the large volume of mail which passes through the Charleroi office from day to day. Recently, under instructions from the postoffice department a tally was kept on the various pieces of first class mail which passes through the local office when it was found that it amounted on an average to 10,000 pieces daily. This included both outgoing and incoming mail and is a criterion as to the amount of busness done by our local office.

In the addition of new facilities the parcels post department was not overlooked. Postmaster Smith is expecting daily a side car to be used in connection with the motorcycle which is already part of the equipment of the local office. This car will be specially constructed for carrying packages and its addition will greatly facilitate the delivery of parcels post packages, of which a large number are received in Charleroi every day. In fact, it has been frequently necessary for the postmaster to hire a team to make deliveries of these packages, so numerous have they become, and it is believed that with the additional equipment for the motorcycle the service can be greatly facilitated. Charleroi's postoffice is one of the leading postal stations in the valley and county and its business is constantly on the increase.

Entered in the Postoffice at Charleroi, Pa., as Second Class Matter

In an article in the Review of Reviews about the workings of his industrial court in Kansas, Governor Allen says:

"I think the fierest definition I have ever read as to the purpose of government is that of John Adams, who declared that the chief aim of government is justice. This is the chief aim of all our human relations. There is no reason why industrial controversies should not be subject to the rule of justice. There is only one source upon which we may depend for its impartial standard, for its dignified utterance, for its impartial adminstration and that source is government.

"The question of the hour is as to whether this Government shall be regulated by all the people under the safeguard of constitutional law or hard-and-fast unionism driven forwhether it chall be regulated by the ward by radical and un-American Labor leaders. If moral principles do not exist in American institutions for the establishment of government over industrial warfare, then American institutions are doomed to failure."

This undaunted and outspoken Kansan not only had something to show the American people in the way of the practical solution of a dead-locked situation menacing the safety and the lives of the people of his State, but also something to tell the American people concerning the right of the public to protection by law in labor disputes as in other matters.

Whatever criticism in detail the machinery of the industrial court may invite, there can be no doubt of the solidity of Henry J. Alen's main proposition. It is government by constitutional law or supergovernment by authority not constitutionally established.

EYES ON U. S. TREASURY

"It is not necessary to sell the United States in order to get a lower exchange rate," declared Senator William E. Borah, of Idaho, in debate in the Senate on internal conditions in Europe. "I am thoroughly in favor of restoring the commercial and business relations between this country and Europe, but I oppose the surrender of a portion of the independence and the soveriegnty of this Government to the domination and control of a foreign tribunal. The great moving power behind the league of nations from the beginning has been international finance. If it were not for the great material resources and the treasury of the United States all interest upon the part of Europe in having the United States join the league would cease. The league is a troroughly war-organized machine. The reason why they are interested in having us join at this time is not the tdeil reason once promulgated, that it would prevent war, but because the Treasury of the United States and the taxpayers of the United States are essential to the prosecution of war in Europe and to the maintenance of the nations."

OPPOSES WILSON'S DELAY.

"The arbitrary position taken by the President in regard to the terms of the peace treaty with Germany prevented the making of peace in the usual way, which is by treaty. It is therefore becomes the imperative duty of Congress to declare officially that war is at an end," stated Representative Stephen G. Porter, chairman of the Committee on Foreign Affairs in the House of Representatives recently. "No reasonable mind can escape the conclusion that the war is long since terminated, and that our country is insistently demanding that the shadow which this technical state of war casts upon the rights and liberties of the American people shall be promptly removed. Congress having exercised its power declaring war surely has the right to exercise the same power and vacate its official acts and thus restore the country to a state of peace."

Secretary Daniels says that Admiral Fiske is a "monumental egotist." Well, that is a subject on which Daniels ought to be an expert.

ALMOST FORGOTTEN STRIKE IS NOW OVER

Here's a railroad strike that ran through a word war and stood complacently by while almost the entire complexion of the Western Hemisphere underwent charges, and might still be running had not the strike committee suddeny thought of it and officially declared it off.

The strike began March 18, 1914, when 750 trainmen on the Monongahela Division of the Pennsylvania railroad declared for improved working conditions and protested against the reduction of train crews.

"It was an outlaw strike," said an official of the Pennsylvania Railroad company, "and was ended by the railroad brotherhoods two weeks after its incetion."

The strike might have been ended, but the strike committee never declared it officially until at a meeting held on the South Side, Pittsburg, on Saturday night last. Most of the men, it is understood had returned to work years ago. The walkout affected all the terminals on the Division and its official length was 2,261 days and 11 hours.

WERE WARNED OF HAYS BANK ROBBERY

The Charleroi police were telephoned early Tuesday afternoon that the First National Bank at Hays had been entered by bandits shortly before noon and amount of cash taken, as well as other securities. The bandits, said to be five in number, drove up to the bank in an automobile, them entering the bank room, where they held up the cashierand an assistant, and after placing them in the vault, proceeded to grab what cash was in sight, as well as some Liberty Bonds on the counter and make their get-away. The Pittsburg police force and the county detectives were advised at once of the robbery, and the bandits were followed as far as Large, where the trail was lost. It is believed the robbers are a part of what is known as the "Bill" Mitchell gang, which is credited with the robbery of the Finleyville bank two weeks ago. The local police saw no trace of the bandits here.

It looks like a fair field at Chicago, and plenty of favorites to pick from. All correspondents agree that the convention appears to be without a boss, and that a dark horse may eventually emerge from the field and take first honors. Such a thing has happened before, and it may happen again at Chicago when the balloting begins. It seems to be the consensus of opinion that if Wood, Lowden or Johnson are not named early in the battle, their chances will rapidly dwindle, with the fight centering on the favorite sons of other states. If such a condition should arise, keep your eyes on the Governors of Kansas, Massachusetts and Pennsylvania.

MINES IDLE BECAUSE OF WATER SUPPLY

Miners at theSoudan colliery near VanVoorhis, on Pigeon creek, are reported as being idle because the men declare that the water supply is inadequate for the needs of the families which live in the company houses. The company is putting in a filtering and purifying system, and is working as hard as possible to improve condstions, but the men it is said have refused to work until the spply is assured. Good water is hard to secure in that locality, and the coal company has been somewhat handicapped in securing as ufficient supply, but hope to have matters remedies within a short time.

FORMER LOCAL MAN IS GIVEN GOOD PROMOTION

J. K. Rickey, who went from Charleroi to McKeesport four years ago to take charge of the Cudahy Packing company interests in that city, has been promoted to general manager of the company's eight houses in this section of Western Pennsylvania. He assumed his new duties on Monday of last week. Mr. Rickey will have offices in Pittsburg, from where he will make periodical visits to the various houses of the company in his territory. The promotion is quite an advancement for Mr. Rickey and his many friends are tendering their congratulations.

JUDGE HUGHES TO ASSIST IN COURT

Judge J. A. McIlvaine, who has not been sitting in court for several weeks, on account of illness, will not sit during the present term of court or in the coming argument and equity courts. On Monday an order was made by Judge McIvaine assigning Judge Haldain B. Hughes of the Orphens' Court to sit in the court of common pleas, assisting Judge James I. Brownson. Judge Hughes will sit during the remaining two weeks of this term and also during the hearing of cases in argument and equity court.

Chicago is not the only convention in the country. We are going to have one of our own next week.

There is no country that can rival North America for the great number of squirrels, both species and subspecies, represented in her fauna. In so far as brilliancy of color and size are concerned, however, says the American Forestry Magazine of Washington, the handsomest and largest squirrels in the world are found in the orient and the East Indies. Along the coast of Malabar is found a squirrel as big as an ordinary cat: this animal is bright red on the upper part of its body, offset by the most intense black, while all the lower parts are of a clear yellow.

"When in Rome Do as Rome Does."

"When they are at Rome, they do as they see done," is contained in "Anatomy of Melancholy" by Robert Burton. St. Augustine was in the habit of dining upon Saturday as upon Sunday, but being puzzled with the different practices then prevailing (for they had begun to fast in Rome on Saturday), consulted St. Ambrose on the subject. At Milan they did not fast on Saturday, and the answer of the Milan saint was this: "When I am here, I do not fast on Saturday; when at Rome I do fast on Saturday."

What You Will Be Tomorrow Depends Upon What You Do For Your Health Today—

You Must Keep Your Blood Filled With Iron To Stand the Strain of Modern Day Life Says Physician—Explains How

Nuxated Iron Helps Build Red Blood

Strength and Endurance

Have you ever stopped to look yourself squarely in the face? Are you getting anywhere? — or just drifting—a little weaker, a little more nervous, a little more run-down every day? Nothing slips away so easily as HEALTH. Unless YOU hold fast to HEALTH by your own efforts—by keeping your blood pure, red and rich in iron—the day may come when all you can do is WISH you had acted sooner. Physicians explain below how to help make rich, red blood and increase strength, power and endurance, through the health-giving, strength-building power of organic iron—Nuxated Iron—which is now being used by over three million people annually.

"Success is in the blood," says Dr. John J. Van Horne, formerly Medical Inspector and Clinical Physician on the Board of Health of the City of New York. "There are men whom fate can never keep down. They triumph over difficulties and ill-fortune because they have within them the never-failing source of courage, confidence and power—pure, red blood, rich in stamina-building iron. Where others hesitate and stumble, these men march forward with a firm step and take the best prizes of life. Their brains are keenly alive, their bodies are fortified with the strength and energy that enables them to take and keep the best the world has to offer. But in the rush and tear of modern day life, many a man and woman neglects to keep their blood filled with strength-building iron and as a result they find themselves on the verge of a physical and nervous breakdown at a time when they should be enjoying their best years. In my opinion, physicians cannot emphasize too strongly the necessity of keeping the blood pure and red with plenty of iron, and I believe they should at every opportunity prescribe organic iron—Nuxated Iron—for in my experience it is one of the best tonic and red blood builders known to medical science."

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, in commenting upon the foregoing statement, says: "Every keen, active successful man and woman of today recognizes that a sound, strong body is the basis of all real achievement and they leave no stone unturned to safeguard their health. Lack of iron in the blood not only makes a man a physical and mental weakling, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. I strongly advise every man who is fagged out by worry, work and other strains to build up his strength, energy and endurance by taking some form of organic iron—Nuxated Iron—for I consider it one of the foremost blood and body builders; the best to which I have ever had recourse."

MANUFACTURERS' NOTE: Nuxated Iron, which is recommended above is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated and does not injure the teeth, make them black, nor upset the stomach. Each tablet of genuine Nuxated Iron is stamped as follows, and the words Nuxated Iron are stamped into each bottle, so that the public may not be led into accepting inferior substitutes. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists in tablet form only.

WHY IT SUCCEEDS

Because It's For One Thing Only, and Charleroi People Appreciate This.

Nothing can be good for everything.

Doing one thing well brings success.

Doan's Kidney Pills are for one thing only.

For weak or disordered kidneys.

Ask your neighbor!

Here is Charleroi evidence to prove their worth.

Mrs. J. Dillon, 168½ Followfield Ave., says: "I have used Doan's Kidney Pills for several years and have never found anything to equal them. Every time I have headaches or backache I become dizzy but at such times Doan's flush out my kidneys in short order and make me feel like a different person."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pill—the same that Mrs. Dillon had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

NEW TASTELESS CASTOR OIL IS EASY TO TAKE

Strength and Purity Remain the Same, but All Unpleasant Taste Is Removed

A remarkable process, perfected by the chemists of Spencer Kellogg & Sons, Inc. has resulted in a great improvement in castor oil, the reliable old family remedy. This new tasteless castor oil has the same strength and purity as the old-fashioned kind. Nothing has been removed but the taste. **Kellogg's** Tasteless Castor Oil is precisely what the name says—absolutely tasteless. Think what this means to mothers, and their children! When the Doctor says, "Give them castor oil," there need no longer be any trouble. Children need never know they are taking castor oil. Grown-ups will also appreciate the difference between Kellogg's Tasteless Castor Oil and the old-fashioned nauseating kind. Insist on Kellogg's if you want a really tasteless castor oil. At all good druggists. Two sizes, 35c and 65c. (Advt.)

When we went into the war, President Wilson declared that we wanted nothing for ourselves. Now he'd have us give away even that which we have.

Get Rid of That Persistent Cough

Stop that weakening, persistent cough or cold, threatening throat or lung affections, with Eckman's Alterative, the tonic and upbuilder of 20 years' successful use. 30c and $1.50 bottles from druggists, or from ECKMAN LABORATORY, Philadelphia

FURS—MOTHS

Before storing winter wearing apparel have them cleaned to prevent moths. Dirt invites moths.

The Most Welcome Tire

That Ever Came to Market

Men Who Appreciate Superlative Values Prefer The Brunswick

In every great tire factory, the chief question is: "How much can we give for the money?" And the product depends on the policy adopted.

Every man who has become acquainted with Brunswick Tires knows that Brunswick standards are again evident. This famous concern—noted as a leader in every line it entered since 1845—has once more proved that its policy is right.

A perfect tire is simply a matter of knowledge and standards and skill. No secrets nor patents prevent making an ideal tire.

But standards come first. For in tire making there is vast room for skimping, for subtle economies, for hidden shortcomings. Makers without the highest standards don't build high-grade tires.

The Brunswick organization of tire makers includes a brilliant staff of technical experts. Not a man among them has spent less than 20 years in handling rubber.

Each is a master of his craft. And the new ideas they bring to the attention of Brunswick directors receive sincere consideration.

Every proved betterment is adopted unanimously.

The Brunswick Tire is a combination of acknowledged features—plus Brunswick standards of manufacture.

The result is a super-tire, the like of which you have never known before. The kind of a tire you will gladly join in welcoming.

Yet Brunswicks cost no more than like-type tires.

Try ONE Brunswick. We promise a surprise. And we feel certain that you will want ALL Brunswicks.

Then good tires will have a new meaning to you.

According to the chief medical adviser of the War Risk Bureau, it will cost the government about $325,000,000 a year to care for 641,900 veterans of the World War who were disabled. It is this fact that is deterring many members of Congress from giving their assent to a general money distribution among those soldiers not physically hurt by the war.

ASK ENTERTAINMENT FOR S. S. DELEGATES

Dr. Fred C. Stahlman, president of the Middle Monongahela Valley Sunday School District, is receiving reports from Sunday schools throughout the county, asking for entertainment for delegtaes who will attend the county Sunday school convention to be held in Charleroi on Thursday and Friday, June 17 and 18. Local workers are expecting at least 600 delegates toattend from the various Sunday schools in the county and it will be necessary for our townspeople to open their homes for entertainment. It has been eight years since Charleroi has been called upon to entertain delegates for a Sunday school convention. Some of the towns of the county have had this task imposed upon them two and three times since that date, and the officials of the local organization a re calling upon our townspeople to open their homes willingly and freely. It is seldom we have an opportunity to entertain such a fine lot of people, who are working unselfishly for the uplift of the community, and the country as well.

MANY FOREIGNERS ARE NOW RETURNING

Foreign workmen who left Pittsburg and vicinity for their native countries after the signing of the armistice are beginning to return to the old sections of the Pittsburg district where they were formerly employed.

Foreign employment agents in Pittsburg said on Monday that for the past 18 months there has been an outflow of foreign workingmen from the Pittsburg district reaching an average of 1,500 per month. These agents have been engaged in securing passports, routings and hotel accommodations for the workmen of this district going home. overseas. Every man going out had a good supply of money earned from his high wages, the agents said.

Inquiry at the railroad stations in Pittsburg on Monday revealed the fact that the re-surge of the immigration is beginning to strke this section. The foreigner is coming back at the rate of 15 or 20 per day. Immigrant agents said that this average wil increase and that they have been informed that at least 100.000 foreign workmen are waiting for boats to bring them to the United States. Most of the men wil be Slavs and Italians.

CROSS SUITS RESULT FROM AUTO ACCIDENT

Cross suits were on trial before Judge Haldain B. Hughes, at Washington, who is assisting in common pleas court. The actions grew out of an automobile accident on the road leading to Speers, about a half mile from Charleroi, November 11, 1919. James B. Bennett, the owner of one car, charged Edgar Montgomery. the owner of the other car, with recklessness and negligence. On the other hand Montgomery makes thesame charge against Bennett.

Bennett avers that as he was driving along the roadway from Charleroi to Speers he had occasion to leave the right side of the road to drive over to the left side. He avers he drove offthe main part of the road and on to the right of way of the Pittsburg Railways company. Notwithstanding that fact, he says Montgomery ran into his car. Montgomery, however, makes a different allegation, averring - was driving on his part of the re- nett in leaving the right side of road swerved into thecar of Montgomery.

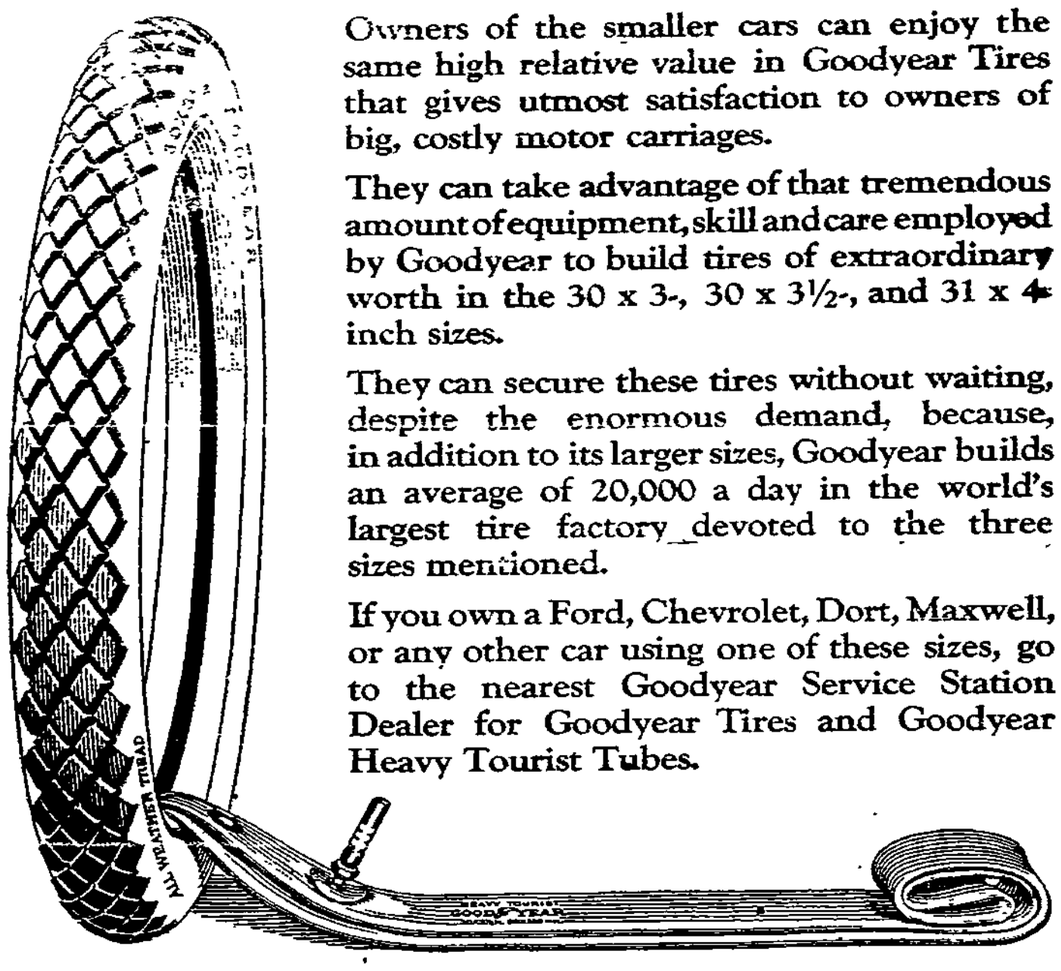
The World's Largest Tire Factory Building 30x3, 30x3½ and 31x4-inch Tires



Owners of the smaller cars can enjoy the same high relative value in Goodyear Tires that gives utmost satisfaction to owners of big, costly motor carriages.

They can take advantage of that tremendous amount of equipment, skill and care employed by Goodyear to build tires of extraordinary worth in the 30 x 3-, 30 x 3½-, and 31 x 4- inch sizes.

They can secure these tires without waiting, despite the enormous demand, because, in addition to its larger sizes, Goodyear builds an average of 20,000 a day in the world's largest tire factory devoted to the three sizes mentioned.

If you own a Ford, Chevrolet, Dort, Maxwell, or any other car using one of these sizes, go to the nearest Goodyear Service Station Dealer for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... $23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... $21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size *in waterproof bag*..... $4.50
